

UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA

IN RE: CATHODE RAY TUBE (CRT)
ANTITRUST LITIGATION

MDL No. 1917

Master Case No. C-07-5944 JST

Case No. 14-cv-2058 JST

This Order Relates To:

Crago, d/b/a/ Dash Computers, Inc., et al. v.
Mitsubishi Electric Corporation, et al., Case
No. 14-cv-2058 JST

**ORDER REGARDING DIRECT
PURCHASER PLAINTIFFS'
SETTLEMENT WITH THOMSON
DEFENDANTS**

Currently before the Court is the Direct Purchaser Plaintiffs' Motion for Final Approval of Class Action Settlement with Thomson Defendants, ECF No. 4091. The motion does not contain information concerning the total likely recovery by the class if Plaintiffs were to prevail at trial. The motion for preliminary approval, ECF No. 3562 (granted at ECF No. 3872), also did not contain this information. Thus, it is difficult for the Court to evaluate the adequacy and fairness of the proposed settlement.

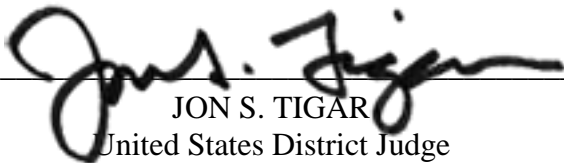

The Northern District of California's Procedural Guidance for Class Action Settlements (available at <http://www.cand.uscourts.gov/ClassActionSettlementGuidance>) provides that any motion for preliminary approval should contain information including "[t]he likely recovery per plaintiff under the terms of the settlement and the potential recovery if plaintiffs were to prevail on each of their claims." See also, e.g., In re Omnivision Techs., Inc., 559 F. Supp. 2d 1036, 1042 (N.D. Cal. 2008) (considering amount of settlement compared to plaintiffs' potential recovery at trial).

///

1 Settling Plaintiffs are ordered to file a supplemental brief addressing this factor by
2 December 1, 2015.

3 IT IS SO ORDERED.

4 Dated: November 18, 2015
